PROFILE

Motivated BCA (AI & ML) student at St. Claret College with a strong interest in data analytics and problem-solving. Skilled in programming languages including Python, Java, and C, with practical experience using tools such as Excel, PowerPoint, and Git. Demonstrates strong analytical thinking, communication skills, and the ability to learn new technologies quickly.

WORK EXPERIENCE

I have experience with programming languages such as Python, Java, and C, and I regularly work with tools like Excel, PowerPoint, and Git for academic projects and presentations. I enjoy learning new technologies and continuously improving my technical and analytical skills.
Beyond academics, I value teamwork, communication, and problem-solving. I have also participated in volunteer activities, which helped me develop collaboration and leadership skills. My goal is to grow as a data analyst and contribute to impactful, data-driven solutions in the future.

Projects Section

Research Activity and AI-Based Presentation

- Conducted academic research on AI-related concepts and data analysis applications.
- Developed and implemented a Python-based approach to explore research findings.
- Analyzed information and organized insights to support data-driven understanding.
- Designed and delivered a structured technical presentation using PowerPoint.
- Demonstrated problem-solving and communication skills while presenting complex concepts clearly.

EDUCATION

Bachelor of computer science 2029 - 2031
St.Claret College Autonomous University

Bachelor of computer science 2025 - 2029
St.Claret College Autonomous University
